Outdoor Weather Policy

In dealing with inclement weather, MLAC adheres to the operating procedures of our facility, set by the Mt Lebanon Recreation Department following the Allegheny County Bathing Code. At the first observation of thunder/lightning, swimmers are exited from the water and are only cleared for re-entry after the defined waiting period of the last observed instance. Piranhas coaches will make that determination or take the lead from facility staff.

If weather conditions are questionable throughout the morning before practice begins, Piranhas coaches will provide a status update to families via email and push/SMS notifications from our TeamUnify platform. Practices held outside will only be cancelled if there is severe weather (thunder, lightning, flooding, etc) and/or there is an inability to access the facility. Refunds are not given for cancellations.

We are fortunate to have a heated pool outside and thus do not cancel for cooler weather days.
